773rd Tank Destroyer Battalion

No. 7

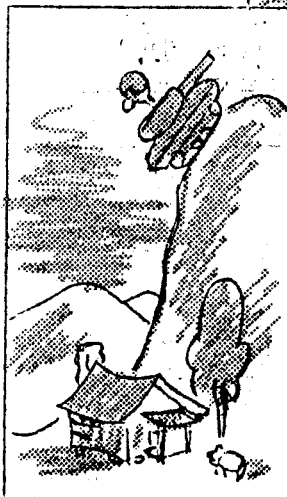

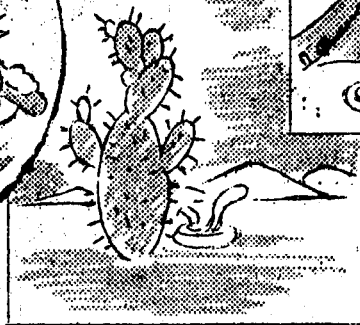

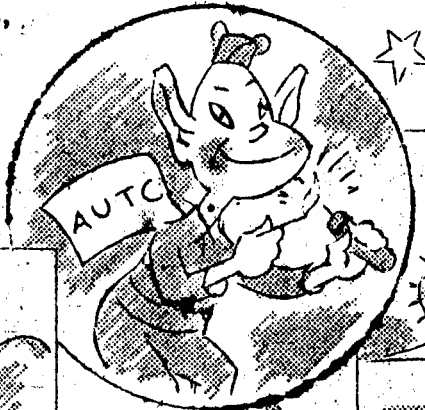

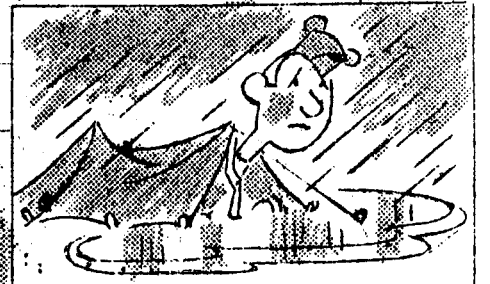

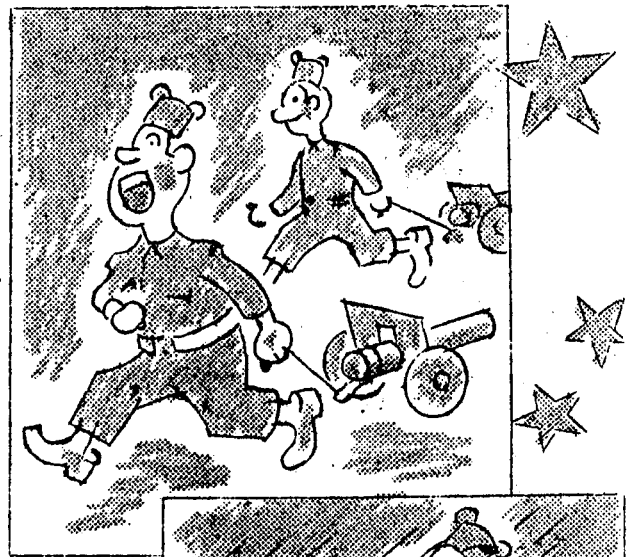

2ND ANNIVERSARY OF THE 773RD TD BN.

HISTORY OF THE 773rd T. D. BATTALION

HE history of the battalion...begins with the induction into Federal Service...January 13, 1941, of the 141st Field Artillery Regiment (Louisiana National Guard).....the 166th Field Artillery Regiment (Pennsylvania National Guard). These units formed the 73rd Field Artillery Brigade....which was stationed at Camp Shelby, Mississippi.

In August of the same year....G and H Battery of the 141st FA, G and H Battery of the 166th FA, ..were combined with personnel of the Regimental Hq's Btry of the 190th FA...

and personnel of the Battalion Headquarters Batteries of the 141st FA. . .and the 166th FA Regiments.. and called the 73rd.

Provisional Anti Tank Battalion. It was in this capacity.... that the battalion served through the Louisiana and Carolina Maneuvers, during which it traveled 9,500 miles through seven states, over a period of four months.

On December 15th, 1941, the 73rd was reorganized and became the 773rd TD Bn....one of the first TD Bns in the U.S.

After very extensive training at Camp Shelby, it was transferred on April 15 to Camp Young, California and was one of the initial units of the Desert Training Center. While at the DTC this unit was under General George Patton.

From the control of the Desert Training Center, the 773rd went to the Control of the Advanced Unit Training at Camp Hood, Texas on December 15, 1942 and remained under the AUTC control.. until it left for Camp Atterbury, Ind. on April 12, 1943.

From Camp Atterbury...the 773rd passed to the control of the 2nd Army for the maneuvers in Tennessee...during which time it covered itself with glory. After eight weeks of maneuvers....the BN returned to Camp Atterbury..under the 9th Group and the IV Armored Corps.

The Organization's Colors were presented to them on October 1, 1943 and it is believed, that this was the first time any Tank Destroyer Colors..were presented to a TD Battalion in the U.S.

In thirty two months, the BN has taken an active part in four field maneuvers spent fifteen of the thirty two months in the field, and has covered eighteen states from coast to coast. Commendations on its work..have been received from the Commanding Generals....of the First, Second and Third Armies the VII Corps and the 17th Combat Team.

The 704 enlisted men in the BN represent 47 states and the 40 officers... represent 18 states. Many of the men speak two or more languages; Armenian, Greek, Hungarian, Syrian, Slovenian, and Lithuanian are a few of the 25 different tongues.

During recent months..136 men have left the unit to attend various OCS. Some time ago five gun crews were selected to serve with the Army Transport Service. The BN is proud of its record... and is looking forward to greater and illustrious achievements in the future.

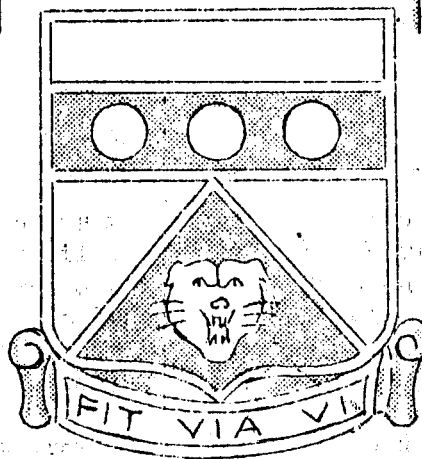

* * *

BATTALION

INSIGNIA

Forceful, bold, intrepid.....from bottom to top.....or anyway you ***** look at it, that's the Crest of the 773rd Tank Destroyer Battalion.....Clear, strong red...symbolizes the reserve power and mighty wallop of our guns and comes to us from...the Field Artillery colors of our mother Brigade...the 73rd Field Artillery. The orange is our own T. D. color "Seek! Strike! Destroy!".....

Benjamin Franklin chose the band of circles for his own coat of arms and we inherited them from the Pennsylva-

nia National Guards... regiments which merged with the Washington Artillery, 141 Field Artillery Regt., of New Orleans, represented by the triangled tiger, to form the 773 Tank Destroyer Battalion. Fit Via Vi, "Way is Made By Force," scrolled across the bottom is the Battalion's mot-

to. It was suggested to the older officers in the battalion by the action "Tank Destroyers" are doing in this war.

BN. C.O.  EXEC.O.

After an address by a captain to a high school graduating class asking for volunteers for a machine gun company...among the volunteers was a boy who though unable to meet the age requirements was accepted 'cause of his size. That was way back in April '24

....and that boy was Frank G. Spiess.

Enlisting as a buck private in the 156th Infantry, he rose to First Sgt. and in June, 1929 he passed a competitive examination and was commissioned a 2nd Lt. He remained with that unit and attained the rank of Capt.

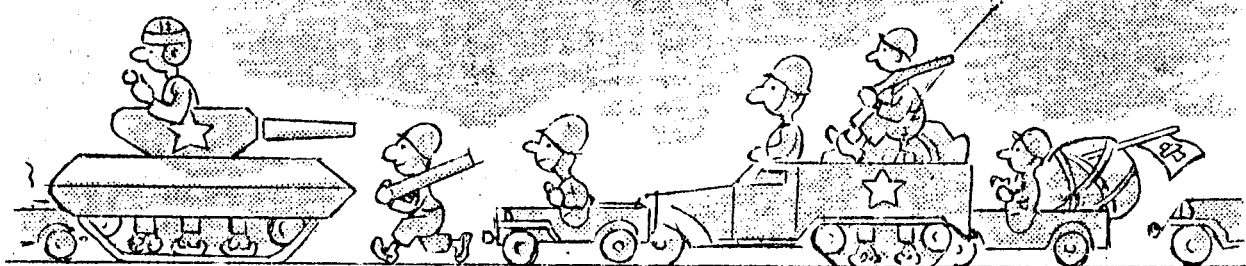

He was transferred in September '39 to the 141st F.A. and there pioneered into the art of Anti-tank defenses.

When Tank Destroyers were activated he was transferred to the 773rd TD Bn., and was promoted to the grade of Major in October, '42., and today he is our Commanding Officer....Lt. Col. Frank G. Spiess.

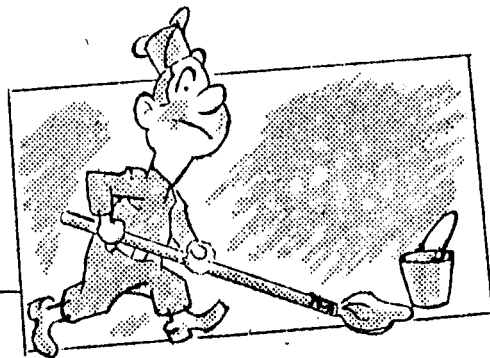

Ride 'em cowboy, and that G.I. is the life of Major Robert L. Moore until the army slipped a mechanized iron steed under him. To the amazement to all including the Cavalry, Major Moore was not the usual 'drug-store cowboy' type M-1....but was a member of the Penn Ohio Polo League. He carries today still a little home-stitching details 'M.D. style' on his person, mementos of his bone jarrin' days. Being captain of the New Castle Rifle Team was in keeping with his army career, which has all the earmarks of a rounded success.

Enlisted...Troop F, 103 Cav...Feb '35
 Appointed...2nd Lieut. Cav....Feb '40
 Transferred to 190 FA, S.B....Jan '41
 2nd Lieut. to 1st Lieut.....Oct '41
 1st Lieut. to Captain.....Feb '42
 Captain to Major.....Aug '43
