

Mary Roe. I know you hate
to have the two little pills
for so long honey but they
should be alright with
your mother. You take
care of yourself that is the
important thing and don't
worry about anything.

Well I sure am glad
that Ray finally received
the seat for his train. I
believe I did give him the
proper address originally &
he didn't ask me for any
other address since. He sure
is a funny little fellow.

Honey I got the biggest
kick out of Ray's little

March 10, 1944

Darling,

I have just returned
from an officer's school of
two hours and am rather
tired honey but have promised
myself to write my honey
a letter before I go to bed.

I keep thinking about
you constantly and oh how
I wish I were there to be
near you Darling especially
during the time you must
go through the ordeal that
I wish was all over. At
nite I look at my honey's
picture and say to myself

you know ^Bvery well how
much I love you & how
I always shall. I can't seem
to find the words to say
what I want to write.

I shall try my hard to
get a few days at least when
you feel good enough to see
me home. Send me a wire
when you want me to meet.
I know that you would like
to feel good when I do, if
possible, so perhaps your
suggestion of coming when
you are ready to go home
would be best. I can then
carry you up the stairs
like I did for our little

why does such a wonderful
girl have to have so much
pain because of me? I
am with you home in
spirit & pray you don't feel
too much pain. Home I
shall do all I can to keep
from getting you in that
condition again. I have been
looking for a wire anytime
& when it comes I think I
shall about pass out. I wonder
if you are there now, goah
how I wish I could be
with you.

I know everything will
be alright Darling and please
don't become discouraged as

2B
I have ^{quite} a few of
the officer's ^{wives} planning to come
here including Mrs. Lawson.
I feel so left out because you
are unable to right away too.

Here is something for you
that will perhaps be a
surprise to you honey Dick
Warner is engaged again &
is actually making plans to
be married. He has a nice
girl that he met while in
California, she seems to be
however I have only saw
her once or twice.

You asked me if the
while 1909 moved here, you
honey they did, how long

the coat or ^{2A} anything you
want to. If you need more
I shall send it any time you
ask for it.

Anyway when you get
back on your feet again &
if we are still here I want
you to come down. I think
Little Rock is a nice town
& believe you would like it
too. I hope too that I can
stay at least in the same
country for your sake.

Our trip here was so
long because they routed us
the long way around. However
we all enjoyed it because
it was a rest for all.

its to be in²⁰ a mystery.

I am most sorry I was unable to see Bill before he left and was unable to reach him by phone, I know he was anxious to see someone close to him too. He will be alright I know because he is in a branch which normally does not move up so very close to the front line.

Be honey I love you so and when we talk about girls I always feel so proud that you are my wife. I wish your dream had of been true & some day it will be.

Love forever & always
Love

tricks were ² though perhaps they sort of annoy my darling little wife. She stooping over & grunting was so funny I could just see him thru his heart.

As for the farm that Dad suggested we live on after this is over I don't think you would care for that kind of life & I only want to make you happy and feel its about time I begin making up for all the unhappiness I have caused you.

I am enclosing a check sweetheart and you just buy

Harry,

P. S.

Have you made
Harry send me the duplicate
form of last year figures
on our income tax. Also
have him figure if he
will the deductions to
income from our house
& fill in on a new form
and send so I can complete
the figures here & send into
the tax collector. If he
see the other form from
last year & our house
receipt book he will know

what to do I believe. I
would like to have a
sheet of instructions for
the long farm also.

The farm from last
year is in the envelope
I gave you in Texas
house.

I love you & miss
you with all my heart
& soul.

Good nite Robbie
my Darling. Take good
care of yourself.
