

Sat April 11.

Hello Folks

I guess I received about everything you sent. The pack, Seth Thomas checks, the razor blades twiggie sent, Twigg's letter and lils and Coo's letters and also June's letter. The pack came in perfect condition and everything in it was just swell.

I'm still in the best of health and getting along fine

We do so many different things that its hard to explain my schedule.

Yesterday Our Company played softball with C. Company and we won by a score of 25-6 I played Shortfield and got two hits but I only played half the game

Today I was in the movies all afternoon we were watching training films, another day we have exercises and another day we march but there's nothing hard about anything and really nothing to worry about because the major told us that we would never leave the United States but we will move from camp to camp and we will never be told what camp we are going next because it gets around, and the soldiers write home and tell their families and before you know it its all around when the train pulls out and nine times out of ten it may not reach its destination
So everything is kept secret.

I received another treatment shot in the arm yesterday and that makes about nine altogether but my arm is O.K. now.

To morrow, Sunday no one is allowed to leave camp for we are going to take our tents down and packs up for we are going out camping for three days. That I think is going to be fun.

Most fellows are bringing their own cooking and cook out there and I'm bringing some stuff to but of course the kitchen truck will be along.

So folks thanks for everything and take care and most of all please don't worry. I miss you all but they say one is better off in the army to-day because they get all the food, clothing, sugar and everything you can't get on the outside.

I'm sending back the checks but whatever you do please do not send me any money or even any packs for my tent is filled with stuff for a while.

Loads of love to everybody

Bye now
Jimmy

Rosemary told me all about the Jeep, and how he made them laugh at the Bingo party

Nice work Jeep

Keep em laughing
