Hello Kay & Chuck.

I am dropping another line to you hoping you all are well & happy. I am as good as can be in this climate. I am getting along fine.

Kay you told me in one of your letters if there was anything I wanted you would get it for me. I have some things I would like for you to get for me. if you can & will. you no doubt can get them at any military supply store. I think there is one of Smithfield St.

was 3<sup>rd</sup> one. <sup>2</sup> here is what I want.  
a Protractor with slide rule + scale rules  
& square rules. they are used in survey  
work. if you dont know what I mean  
show him a list of them. we use  
them for plotting artillery fire, the  
Protractor is a half circle of Celluloid  
measured of in mills. to represent a  
Compass reading. & for measuring distance  
in mills. the rules & square, are  
just a rule measured of in a scale  
of yds. or meters. for measuring distances  
on a map. & also for drawing a map.  
I dont know what they will cost  
but I will send the money to you  
the last of this month. Because I

cant get a money order now until the <sup>3.1</sup> last of the month. they should not cost more than \$3 or \$3.50. they come in a set get the complete set I will gladly make it worth your trouble I need them right away. so please do this for me. you may be able to get them at an ordinary hardware store. I will be waiting for your answer so please rush the order.

I will have to close now we have a show in camp tonight & it is time for it to start now. tell everyone hello for me. tell Fally hello & to drags me a line if she sees fit to always Clyde.
