FOR meritorious service during the period September 1975 to March 1978, while serving as Deputy Commander/Chief of Staff, US Army Operational Test and Evaluation Agency (OTEA). COL Raney dynamically directed the staff activities of a field activity of the Chief of Staff, Army in support of Materiel Acquisition and Force Development process. The products provided, under COL Raney's outstanding direction, recommended the military utility of a system, its operational effectiveness and operational suitability. This was accomplished without bias and in many instances resulted in substantial money and manpower savings to the Army and DOD. His outstanding contributions to OTEA reflect the highest credit upon himself, OTEA, and the US Army.
